

ARDI4USB tool for Windows by Daniel F Valot

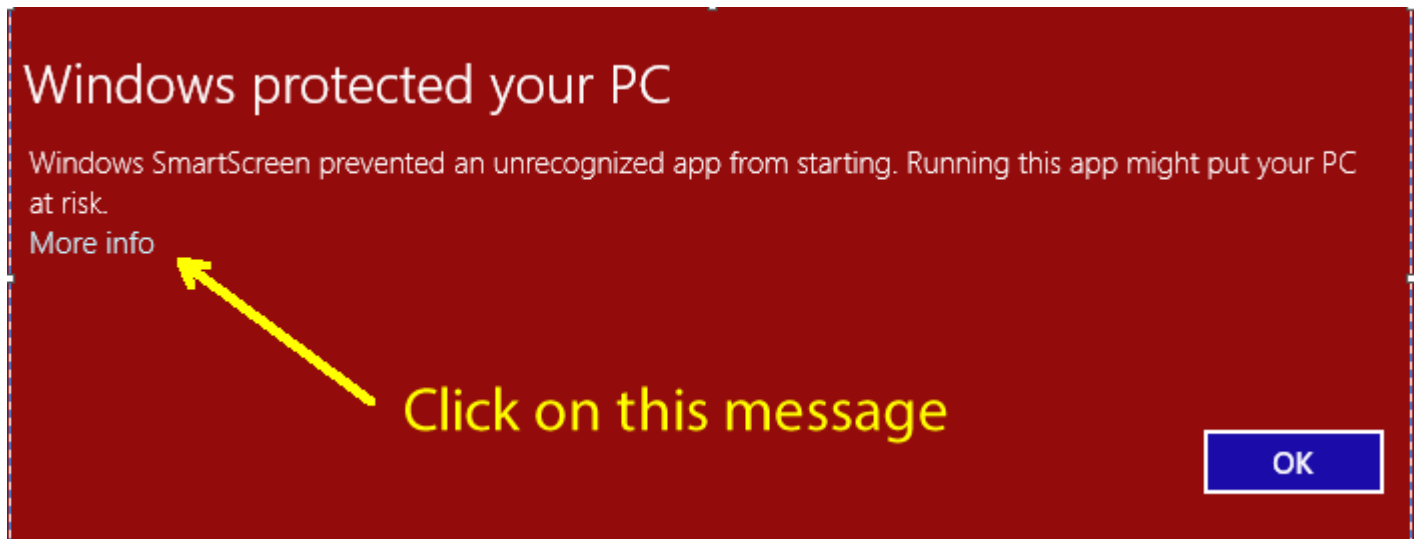

Setup for Windows 8, 8.1 and 10

I - For the ZIP package ARDI4USB.zip:

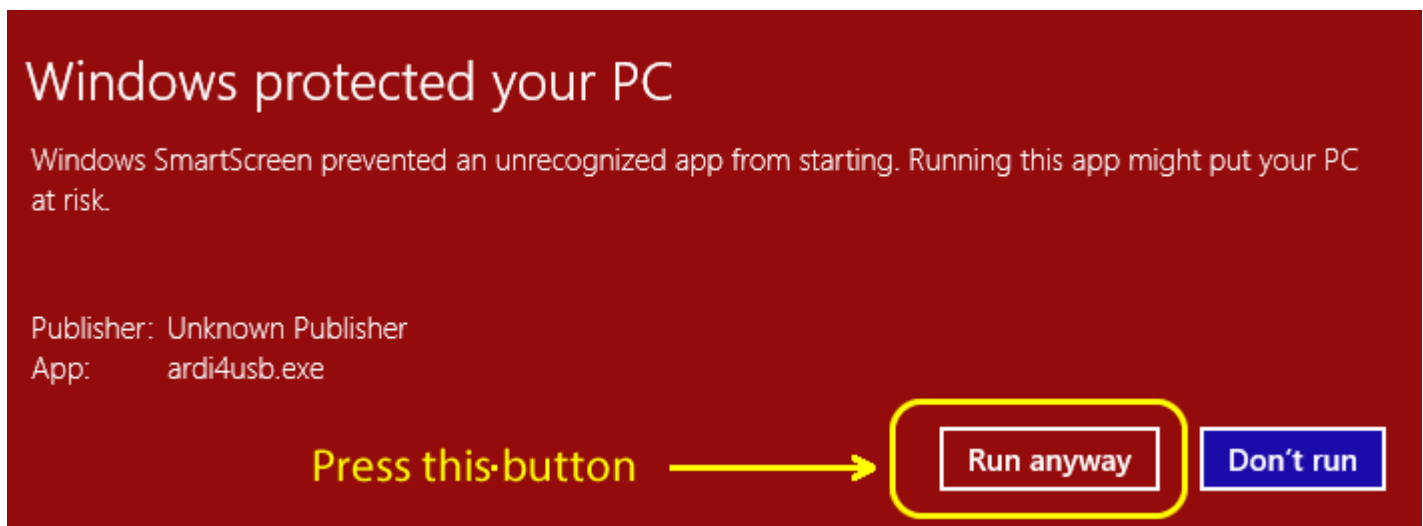

1 - Unzip ARDI4USB.zip to get ARDI4USB.EXE

2 - Start ARDI4USB.EXE

3 - you may get this popup window in your system language:

4 - Click on the message (don't click on "OK button"). You'll get this popup in you system language:

5 - Click on the "run anyway" message equivalent.

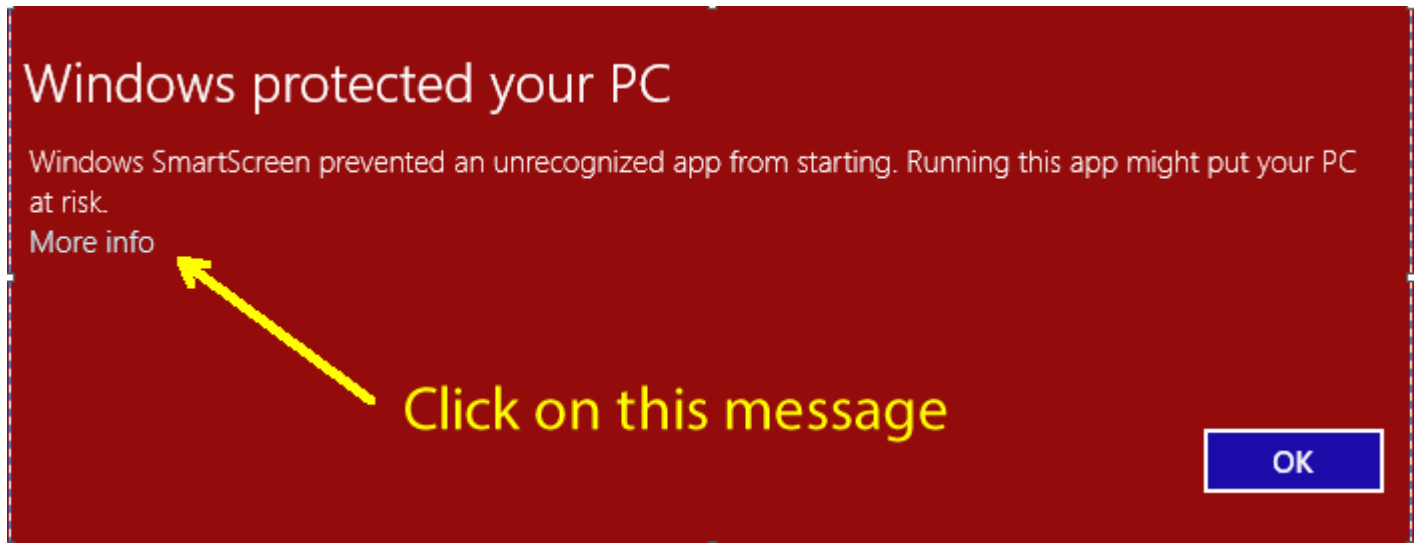

And the program will run.

II - For the Installer package ARDI4USB.zip:

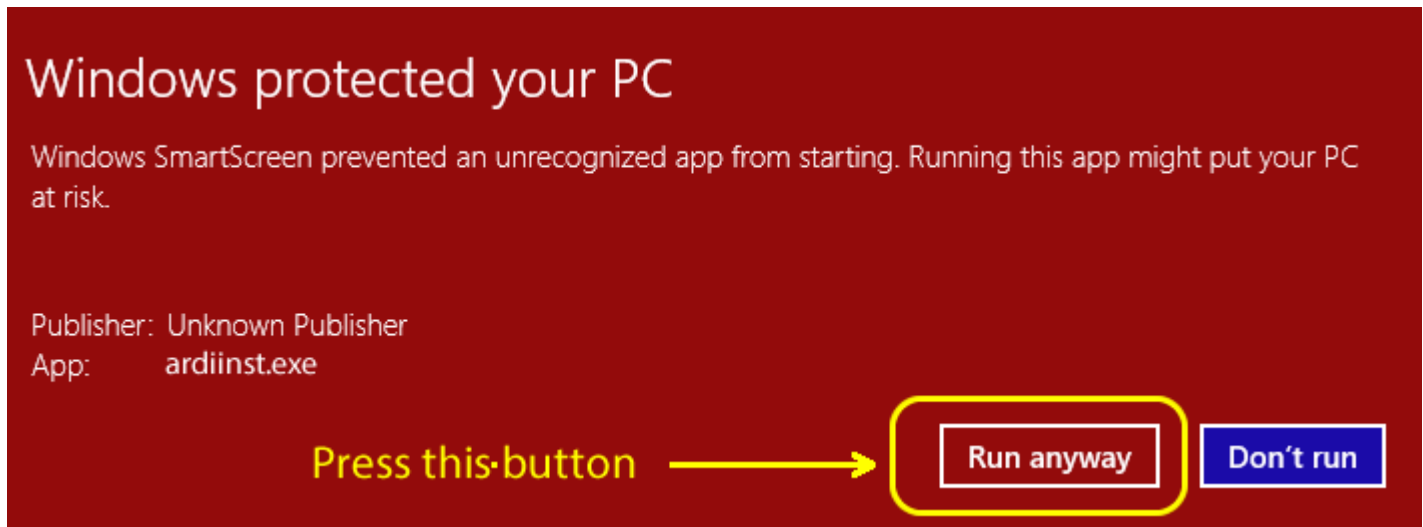

1 - Unzip ARDIINSTexe.zip to get ARDIINST.EXE

2 - Start ARDIINST.EXE

3 - you may get this popup window in your system language:

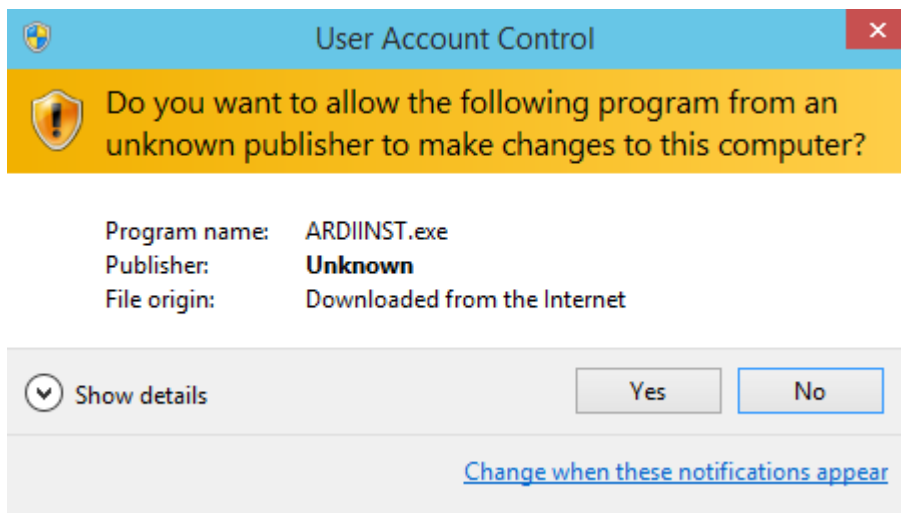

4 - Click on the message (don't click on "OK button"). You'll get this popup in you system language:

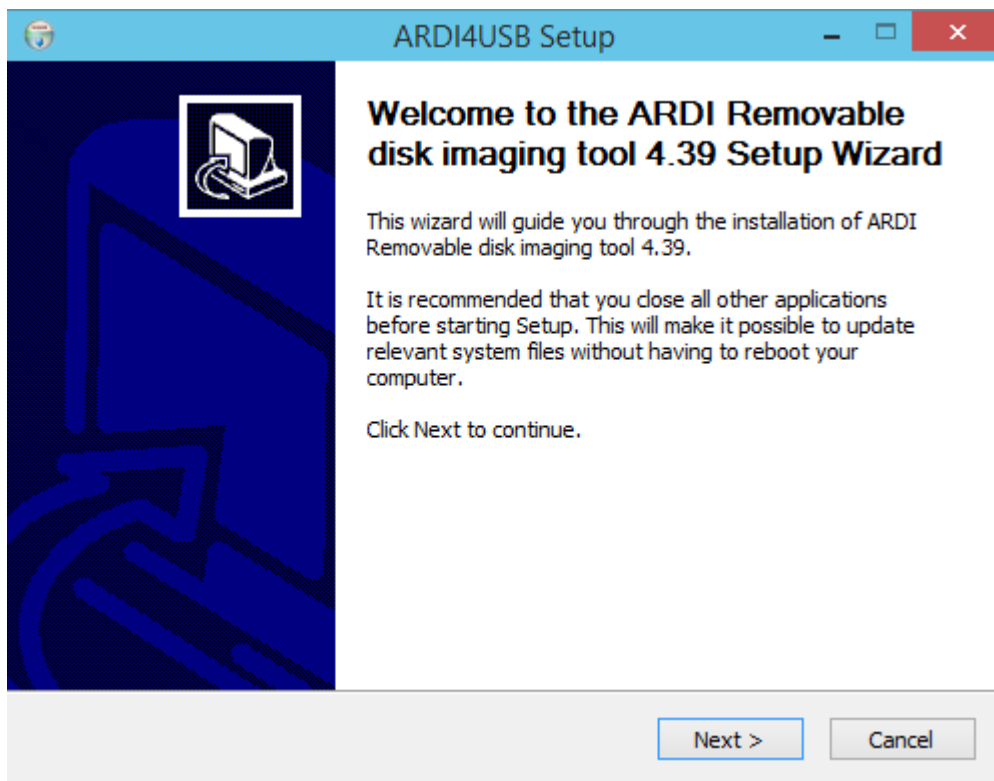

5 - Click on the "run anyway" message equivalent.

6 - You will get the next "UAC" popup in your system language:

7 - Press the "Yes" button. Then, you see the setup program in english:

8 - Run the setup as usual with default options.
